

## “Set Condition Short Call Type Undefined”

Recently a bug was uncovered in NavBlue that created the Reserve bid statement shown above. This bug has been fixed by NavBlue.

**ANYONE WITH THIS BID STATEMENT IN ANY OF THEIR BID GROUPS WILL NEED TO DELETE IT, THEN RE-INSERT THE PROPER BID STATEMENT AND CALL TYPE (R3, R10, ETC.).**

To do this, you'll need to first clear your web browser's cache. Once that is done, you can log back into NavBlue and re-insert your RAP bid statements.

Please contact [SPAPBSHelp@alpa.org](mailto:SPAPBSHelp@alpa.org) should you need any assistance with your June PBS bid.
