

Email Registration for Password Resets

We are asking that every pilot take a few minutes to register your email with NavBlue. This is a VERY important task! Doing so will allow you to reset your password should you ever forget it. The JPWG has the ability to reset passwords, but if there is a time constraint you may not be able to wait for us to see your email and make the change.

To register your email, log in to NavBlue and click the  icon on the top right corner of the screen:

Click “Change Email”. Then enter whichever email address you wish to use for password resets, and click “Register Email Address”:

Change Email
